## SUMMARY

Frontend Engineer with 4+ years of experience building scalable web applications using React and Next.js. Specialized in component-driven architectures, performance optimization, and CMS-driven platforms. Proven track record improving Lighthouse scores, building reusable UI systems, and delivering responsive, accessible user experiences.

## TECHNICAL SKILLS

**Languages / Web Technologies:** HTML5, CSS3, SASS, JavaScript (ES6+), TypeScript

**Frameworks / Libraries:** ReactJS, Next.js, Material UI, Storybook

**Frontend Architecture & Concepts:** Component-driven Development, Design Systems, UI Prototyping

**Performance & UX:** Responsive Design, Accessibility (WCAG), Lighthouse Optimization

**Tools & DevOps:** Git, VSCode, Chrome DevTools, Azure DevOps, Vercel

**CMS & Integrations:** Sitecore, SharePoint, Microsoft Power Automate

**Methodologies:** Agile, Scrum

## PROFESSIONAL EXPERIENCE

**Accenture | Application Development Analyst | Jun 2024 – Jun 2025**

### Project: Avanade.com

- Re-architected frontend using **Next.js and Sitecore**, improving maintainability and page performance.
- Improved **Lighthouse performance scores by 30%** through image optimization and frontend enhancements.
- Built **dynamic search landing pages** using Coveo Headless, improving content discoverability.
- Developed reusable UI components using **Storybook**, enabling faster development across teams.
- Collaborated with cross-functional teams to establish **shared frontend architecture and code quality standards**.

### Project: Avanade Collab

- Developed a **SharePoint-based mentor-mentee platform** supporting internal collaboration.
- Designed structured **SharePoint lists**, reducing manual data uploads by **80%**.
- Automated workflows with **Microsoft Power Automate**, improving onboarding efficiency.
- Managed deployments and CI/CD pipelines through **Azure DevOps**.

**Accenture | Application Development Associate | Apr 2022 – Jun 2024**

### Project: UCM Web Modernization

- Rebuilt legacy UI using **Next.js, HTML5, and SASS**.
- Integrated **Sitecore CMS**, enabling non-technical teams to manage dynamic website content.
- Developed reusable UI components with **Storybook**, improving design consistency.
- Ensured cross-browser compatibility, accessibility compliance, and responsive layouts.

### Project: SAUDIA

- Implemented frontend enhancements and resolved UI defects for enterprise web applications.
- Improved component performance and user experience through targeted optimizations.
- Supported deployment monitoring and post-release fixes.

**VAKS Solutech India Pvt. Ltd. | Developer Trainee | Jul 2021 – Apr 2022**

- Built full-stack features using **Node.js, MongoDB, HTML, and CSS**.
- Developed responsive UI components and supported backend API integrations.
- Participated in Agile sprint cycles, code reviews, and debugging sessions.

## EDUCATION

B.E. Computer Science and Engineering: Basaveshwar Engineering College, Bagalkot | 2020 | CGPA: 8.3/10

## CERTIFICATIONS

Azure AI Fundamentals | Azure Fundamentals | Google UX Design Certificate | FreeCodeCamp: Responsive Web Design
